

Incoming Preschool Students

The Massachusetts Department of Public Health requires all children entering preschool to have a current history and physical and updated immunizations. The immunizations required for entry into preschool are as follows:

- 3 doses of Hepatitis B
- 4 or more doses of DTaP/DTP, (Diphtheria, Tetanus, Pertussis)
- 3 or more doses of Polio
- 3 or more doses of Hib, (Haemophilus influenzae type b)
- 1 dose of MMR, (measles, mumps, rubella)
- 1 dose of Varicella, (chicken pox)

Your child's history and physical must be from within the past 12 months dated and all immunizations must be up to date, I ask that all medical information be forwarded to the school health office by the start of the 2017 school year.

Having your child's current health history allows the staff to be able to accommodate any special needs your child may have at the start of the school year.

Please call the school with any questions or concerns.
